

KRS pot watering set

The KRS® pot watering set for terraces: ideal for efficient water supply of up to 15 plants. Pots and window boxes can be watered conveniently with the hose system and droppers.

1 Pot watering set for 15 plants

- Convenient and efficient watering of pots and window boxes.

2 Dropper with water flow regulation

- Targeted and need-based watering of plants.

3 Expandability

- Can be combined with Kärcher Rain System® components, as well as with the ecologic SensoTimer for efficient control.

4 Can be individually combined

- Extremely flexible for laying.

KRS POT WATERING SET

2.645-276.0

KÄRCHER

		Order no.						Price	Description	
Automatic watering										
SensoTimer ST 6 ecologic	1	2.645-213.0							The intelligent water timer SensoTimer ST 6 ecologic is based on the water demand of the plants and waters in a moisture-controlled manner with the help of a radio sensor.	<input type="checkbox"/>
SensoTimer ST 6 Duo ecologic	2	2.645-214.0							The intelligent water timer SensoTimer ST 6 Duo ecologic is based on the water demand of the plants and waters in a moisture-controlled manner with the help of 2 separate radio sensors.	<input type="checkbox"/>
Kärcher Rain System*										
Particle filter	3	2.645-225.0							The particle filter reliably protects the Kärcher Rain System* from dirt particles. The filter inlay can conveniently and easily be removed and cleaned.	<input type="checkbox"/>
Pressure Reducer & Particle Filter	4	2.645-226.0							The pressure reducer with filter reduces the input pressure from max. 12 bar to an optimal 4 bar for the Kärcher Rain System*. The filter protects the Kärcher Rain System* from dirt particles.	<input type="checkbox"/>
Kärcher Rain System* hose	5	2.645-227.0							The Kärcher Rain System* hose supplies the Kärcher Rain System* with water. Various adjustable application components can be attached directly onto the hose.	<input type="checkbox"/>
Soaker Hose	6	2.645-228.0							The 25-m long trickle hose is perfect for the efficient watering of hedges and bushes thanks to the even output. The hose can be extended to 50 m.	<input type="checkbox"/>
	7	2.645-229.0							The 10-m long trickle hose is perfect for the efficient watering of hedges and bushes thanks to the even output. The hose can be extended to 50 m.	<input type="checkbox"/>
T - Connector with Water Flow Regulation	8	2.645-231.0							The T-piece with regulation connects 3 Kärcher Rain System* hoses or soaker hoses. The lateral tee is adjustable and perfect for connection of the soaker hose.	<input type="checkbox"/>
I - Connector	9	2.645-232.0							The I-piece connects two Kärcher Rain System* hoses or soaker hoses. Using the I-piece, the soaker hose, for example, can be connected to the Kärcher Rain System*.	<input type="checkbox"/>
Hose Stop	10	2.645-233.0							With the end piece, the Kärcher Rain System* hoses and the soaker hoses can be sealed securely. It is mounted at the end of the respective hose without the use of tools.	<input type="checkbox"/>
Drip Nozzle	11	2.645-234.0							The drip collars with integrated needle can be attached at any point on the Kärcher Rain System* hose. The adjustable dripper enables direct watering of plants.	<input type="checkbox"/>
Sealing Collar	12	2.645-235.0							Sealing collars can be attached at any point on the Kärcher Rain System* hose. They can be easily installed and reliably seal collar holes that are no longer required.	<input type="checkbox"/>
Micro Spray Nozzle	13	2.645-236.0							Spray collars with integrated needle can be attached anywhere on the Kärcher Rain System* hose. The adjustable Micro Sprayer can be adjusted as required.	<input type="checkbox"/>
Hose Spike	14	2.645-237.0							The ground spike is used for laying and fixing the Kärcher Rain System* hoses and the soaker hoses. The integrated rubber ring on the attachment point ensures an optimal grip.	<input type="checkbox"/>
Kärcher Rain Box	15	2.645-238.0							The extendable Kärcher Rain Box with filter, drip collars, connection parts and hoses is the ideal ready-for-connection starter set for efficient garden watering.	<input type="checkbox"/>
Micro Sprayer Set	16	2.645-239.0							The nozzle kit contains various spray, sealing and drip collars for affixing to the Kärcher Rain System* for individual expansion of the efficient watering system.	<input type="checkbox"/>
